- 1.
- 2.
- 3.
- 4.
- 5.
- 6.
- 7.
- 8.
- 9.
- 10.

What's working well? What's frustrating?

What have you learned about your research topic?

What have been your best individual contributions to your project?

Name new skills you've acquired since the beginning of the program.

What do you still need to get done?

When you think about your project, what makes you nervous?

**What's your best memory  
of CS Scholars so far?**

**What's your worst memory  
of CS Scholars so far?**
